Motivated and results-driven software developer with extensive experience of designing, developing, and deploying complex software applications. Skilled in multiple programming languages, frameworks, and development methodologies, including Java and Spring. Proven track record of delivering high-quality software solutions that meet or exceed client expectations, on time and within budget. Strong problem-solving and analytical skills, with keen attention to detail and passion for staying up to date with latest technologies and trends. Excellent communication and collaboration abilities, with demonstrated ability to work independently or as part of a team to deliver innovative solutions. Seeking to leverage my skills and experience to make a positive impact.

Professional Experience

Merge Event Solutions, Staten Island, New York Developer

Jan 2023 – Present

Collaborated closely with stakeholders to identify and execute key enhancements to the website's performance and usability, resulting in user satisfaction. Innovated and optimized data entry processes by utilizing cutting-edge scanning technology to convert paper documents into digital files, effectively streamlining the data entry process. Exercised meticulous attention to detail and a relentless focus on accuracy, compiling, sorting, and verifying information to prepare high-quality source data for computer entry. Maintained comprehensive and meticulously organized records of all data entry activities, ensuring transparency and accountability at every step of the process. Continuously sought out opportunities for innovation and process improvement, leveraging unyielding commitment to efficiency and accuracy to optimize data entry performance and drive business success.

- Efficiently engineered and developed a visually stunning memorial website for a 65" touch screen, integrating CSS, HTML, and JavaScript and delivered seamless user experience, complete with interactive gallery features and video display.
- Conceptualized and implemented intuitive and responsive interactive gallery system, enabling visitors to zoom in on photos and effortlessly send them to designated email addresses.

Arcese Trasporti S.P.A, Rivalta di Torino, Italy IT EDI Support

Jan 2021 – June 2022

Oversaw development of new EDI customer maps for latest clients. Conducted in-depth analysis of EDI file movements from origin to destination, developing customized and highly optimized Trading Partner EDI maps to enhance efficiency and cost-effectiveness. Developed and implemented series of critical changes that effectively prevented costly financial losses for Arcese, demonstrating exceptional problem-solving skills and deep commitment to driving business success. Demonstrated advanced proficiency in SQL to gather and analyze data, generating valuable insights and strategic recommendations to drive optimal performance and outcomes. Collaborated closely with cross-functional IT teams, building strong relationships, and driving alignment to achieve targeted results and maximize organizational effectiveness. Maintained meticulous records of all EDI mapping and analysis activities, ensuring transparency and accountability at every stage of process.

- Led and inspired team of 5 EDI specialists, to achieve exceptional results and overcome complex challenges through collaborative and innovative approach.
- Authored comprehensive and highly effective manual, empowering team to resolve EDI issues, reducing resolution times quickly and effectively by 15% and delivering significant cost savings for organization.

Consultant for Arcese Trasporti S.P.A. Effectively enhanced operatives' client proficiency in internal applications usage through exceptional online and telephone desk support across Belgium, France, Italy, Spain, Romania, and the UK. Demonstrated exceptional problem-solving skills in resolving and expediting requests from Trading Partners, ensuring prompt issue resolution, and boosting operational efficiency. Meticulously tracked files from origin to destination, proactively identifying and swiftly troubleshooting errors, resulting in minimized delays and downtime. Consistently exceeded expectations by delivering excellent support to operatives and improving their internal applications usage experience, resulting in enhanced productivity and workflow optimization.

- Successfully intercepted and meticulously modified files with anomalies from trading partners, retransmitted them correctly, and prevented ticket escalation, showcasing outstanding attention to detail and effective communication skills.
- Developed and executed strategies to change maps, ensuring seamless and error-free data flow, optimizing the overall workflow, and ensuring accuracy and integrity.

Quattrolinee, Turin, Italy
Web Developer

Jul 2019 – Feb 2020

Consistently demonstrated attention to detail, creativity, and technical expertise, resulting in visually appealing and user-friendly web pages that met or exceeded client expectations.

- Created and expertly managed the Paideia web page at www.fattoriasocialepaideia.it, providing users with relevant information and an intuitive user experience.
- Skillfully updated the web page at www.ballettoteatroditorino.it, providing accurate and up-to-date information to potential visitors and increasing ticket sales.
- Updated and completed the BottomUp! Torino web page at www.bottomuptorino.it, ensuring accuracy and relevance of information and maintaining an engaging user experience.
- Successfully implemented splash page for Graphic Days 2019 and 2020, resulting in increased user engagement and visually appealing website at www.graphicdays.it.
- Monitored and manipulated data using the Firebase and Vue.js framework for the annual Poster Heroes event at www.posterheroes.org, ensuring that users had access to relevant and engaging content.
